Versant Advanced Practice Registered Nurse Fellowship™ (VAPRNF™)

Versant® is proud to announce the launch of the **Versant Advanced Practice Registered Nurse Fellowship™ (VAPRNF™)**. In early 2018, Versant will offer an Advanced Practice Registered Nurse (APRN) Fellowship. Candidates will have the opportunity to apply at Versant client partner sites. Accepted Fellows will be the first APRNs in the nation to experience the proven benefits of the Versant Competency-Based System™. Fellows will be assessed for competency gaps – remediated via evidence-based practice literature, case studies, skills labs – and demonstrate competency at the point-of-care with each organization’s implementation and management assessed for sustainable, repeatable results. The Versant Advanced Practice Registered Nurse Fellowship will be available to both Primary Care and Acute Care Fellows with more specialties to be offered later in 2018.

ABOUT VERSANT

Versant’s mission is to fundamentally improve the quality of patient care through developing and sustaining professional nursing organizations ...One Nurse at a Time®. The company offers the Versant New Graduate Nurse Residency™ (VNGNR™) – a program for newly graduated nurses for professional nursing practice, the Versant Transition Nurse Fellowship™ (VTNF™), and role development programs such as the Versant Preceptor Development Fellowship™ (VPDF™). The company also provides the Versant Competencies Assessment, Acquisition & Tracking System™ (Vcats®) for managing the

competency performance of the entire nursing workforce. Developing new strategies to successfully onboard new and experienced nurses to maintain delivery of high quality patient care, while reducing the high cost of nursing turnover, is the hallmark of Versant.
